

# Hear from a Trusted Expert and Psychedelic Scientist

## Psychedic.Support

accelerates personal and global transformation by advancing responsible psychedelic assisted therapy through our leading directory of providers and leadership in accredited online education.

A 501 (c)(3) Project New Day exists to help people overcome addiction and actualize mental health through the responsible and legal use of psychedelics.

Allison Feduccia, PhD  
Co-founder & CEO  
afeduccia.com

## Hi! I'm Dr. Feduccia

A neuropharmacologist and psychedelic researcher. I've been studying psychedelics and mental health treatments since 2004 at organizations including the NIH and MAPS. At Psychedic.Support we facilitate the spread of evidence-based knowledge, connection to resources, and strategies for individuals to maximize the potential therapeutic benefits of psychedelics through safe and responsible practices.

## Psychedelics are changing the world.

- Dr. Feduccia has authored 26 publications on psychedelics and mental health in peer-reviewed journals.
- Psychedic.Support offers a robust network of psychedelic-informed mental health professionals.
- Psychedic.Support leads in accredited online psychedelic education for professionals.
- We're a team of psychedelic science and industry experts.

## Let's chat!

Our Psychedic.Support team can offer expert content and conversation about:

- Psychedelics & mental health disorders (PTSD, substance use, depression, anxiety, etc).
- The changing landscape of psychedelic science and industry.
- The importance of psychedelic education for professionals.
- Psychedelic pharmacology, psychological mechanisms, therapeutic approaches and clinical trials.
- Advancing public understanding of psychedelics.
- Psychedelic harm reduction and decriminalization.
